Supplier Training Videos

Did you know newly updated Supplier Training Videos are now available to all JAGGAER Suppliers? These short videos help suppliers learn how to use the JAGGAER Supplier Network functionality and can be viewed within your Supplier Portal on the Online Training and Support Page. We added new 'Training Videos' sections to help direct you to what you want to see most. Example areas covered include Hosted Catalog Management, Integration Management and Buyer Relationship Management.

You can use these videos to:

- Train new users or suppliers
- Refresh existing users or suppliers on functionality and tools
- Gain a better understanding of the JAGGAER Supplier Network as a whole

If you have any questions or feedback on the Supplier Training Videos, please contact Support by phone at (800) 233-1121, Option 3 or by creating a support request by filling in [this Supplier Support Request form](#).

Data Completeness Evaluation for 2017

Your hosted catalog content is searched by buyers to purchase products so it is critical that it is optimum, making it easy for the customer not only to search products but also to utilize it in various processes such as workflow, spend analysis etc. JAGGAER evaluates hosted catalog content three times a year to identify any data gaps in your hosted catalog content – such as missing CAS Number, Manufacturer Part Number values, etc. – that are adversely affecting the shopping experience for the buyers. We will soon undertake the third Data Completeness Evaluation (DCE) for 2017, the last one scheduled for this year. We will extract the data on the evening of Thursday, September 28, to be used for DCE. The resultant Data Completeness Reports (DCRs) will be made available via the SupplierNews November issue. Especially if you edit your catalog only annually, be sure to take a look at it and close any data gaps as soon as possible.
