Are you prepared for **JAGGAER Security Upgrade to TLS 1.1/1.2**?

Get Ready to Submit Excel Files!

We are excited to announce an upcoming functionality that will be very useful to you, especially if you maintain your master catalog in Excel. As a part of the 18.1 Release that will be effective on April 8, 2018, we will start accepting files for content / price / proxy submissions in Excel format! This will eliminate the need to export catalog data that you maintain in Excel to a tab delimited text format.
Here are few noteworthy points about the functionality;

- Excel files can be in the Excel 2007 version and beyond
- Excel file format itself stores data in compressed format. As a result, we will not create zip archives for files generated by the submission created by using Excel file, thereby saving a step of unzipping such files

- Although the Excel file can have multiple worksheets, the leftmost one will be processed. So you can prepare a new worksheet for the data to be loaded to your JAGGAER hosted catalog right in your master data file
- We will continue to accept tab delimited text files as we currently do

We will provide additional details as we get closer to the 18.1 Release.

'Brand' Attribute Will Soon be Made Searchable

We are introducing one more change as a part of the 18.1 Release that will be effective on April 8, 2018. The existing attribute, 'Brand', will be made searchable. This is a text attribute which is expected to be filled with information about brand information associated with a product. It now will be made searchable so that buyers can look for specific brand of product. E.g. when purchasing HPLC grade solvent, they can search for specific brand. When a distributor is offering same/similar products from different vendors, buyers can fine tune search by desired brand.

You can populate Brand attribute for your hosted catalog by including a column with Brand as header. Note that:
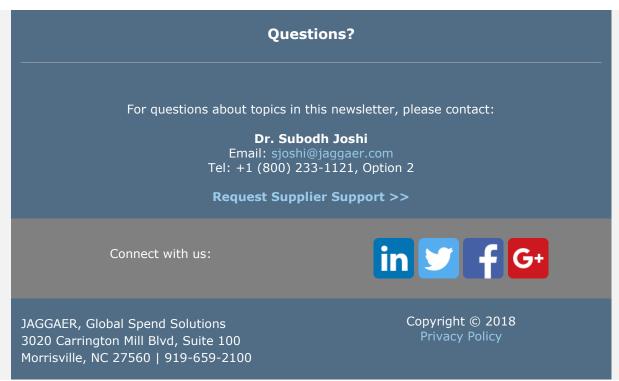

- Brand is a text attribute
- If no brand is associated with a product, leave it blank
- Please DO NOT populate this attribute with supplier name or manufacturer name information. They have their own attributes, both being searchable
- Be aware that entering generic, inaccurate information will result in incorrect products coming up in search results, leading to very adverse user experience to the buyers

REV2018: Sponsorship Opportunities are Here

We now have sponsorship opportunities ready for REV2018 (Las Vegas on April 24 – 26, 2018), the premier event where you can network with decision makers from our mutual customer and prospect organizations. You can now secure your spot for various sponsorship opportunities such as;

- **Gold**: $15,000 – 10x20 booth, all promotional opportunities presented, six passes
- **Silver**: $10,000 – 10x10 booth, select opportunities, four passes
- **Bronze**: $5,000 – 10x10 booth, select opportunities, two passes
- **Additional Opportunities**: Meal sponsorships, door drops, receptions starting at $2,500 along with logo/name on REV2018 website, email marketing campaigns, signage/announcements at the event etc.

For additional details and to sign up for the sponsorship opportunities, please contact Suzanne Templeton, stempleton@jaggaer.com or 919-659-2237.
