IMPORTANT:

Are you prepared for [JAGGAER Security Upgrade to TLS 1.1/1.2?](#)

Hope to see you at [REV2018](#) in a couple weeks!

Product Release 18.1 is Now Available

The 18.1 Product Release is now available in your JAGGAER Portal, effective 8th April 2018. For details of these features, please refer to the [Supplier Release Notes](#). It will have details including any new permissions needed, possible impact level etc.

Here is a summary of the new features;

- Bank routing numbers, for US banks, in Payment Information will now get validated. New notification when Payment Information changes
- Ability to use Excel files when creating submissions for catalog management
- Receive link in email to create invoices without logging into Portal
- Ability to filter Sourcing Events by Business Units or Work Groups

As you use these features, if you have any questions/concerns or need help, please contact Support by phone at (800) 233-1121, Option 2 or by creating a support request by filling in this [Supplier Support Request](#) form.

About Product Attribute Changes

JAGGAER supports over 1100 product attributes that can be used to provide various details associated with each product in a supplier's hosted catalog. As a part of the 18.1 Release that is available now, effective 8th April 2018, we have made two changes to the product attributes;

- The existing product attribute, 'Brand', is now a searchable attribute. Please review the values for this attribute in your hosted catalog and edit/add as needed
- A new product attribute, 'UDI Code', is now available. It is a text attribute that is not searchable. Any Unique Device Identification code as per FDA guidelines can be entered in this attribute.

The 'Attributes' tab in the 'CategoriesAndAttributes' file available on the 'online training' page in your JAGGAER Supplier Portal has been updated accordingly.

If you have questions about these product attributes or any product attributes, please contact Dr. Subodh Joshi at sjoshi@jaggaer.com.

Replies to SupplierNews eMail Messages are Not Monitored

Please note that any replies to the SupplierNews email messages are not monitored. So if you reply to the message to ask any questions or request help, it will not be attended to. If you have questions about any topic in the SupplierNews or need help about your hosted catalog;

- Please create a Support request by creating a support request by filling in this [Supplier Support Request](#) form
- Note that the link for the form, along with a contact number to reach us by phone, is always provided at the end of the SupplierNews

When you fill in the Supplier Support Request form, do provide the Supplier ID number whenever available. In the Details field, include reference to the SupplierNews, PO/Invoice number, customer name etc as that will help us gather as much details as possible when we reach out to you to work further.

Note that at times, we provide contact information of specific person at the end of the topic to address any questions/concerns that you might have regarding the details in the topic.
