Sponsorship is NOT Required at REV2019 Event

In previous month's SupplierNews, we talked about sponsorship opportunities available to you for the [REV2019 event](#). However, note that we host this event as a platform for various stakeholders in the supplier / prospect / client organizations to interact and exchange ideas. While sponsorships are a great way to readily put your name in front of 600+ decision makers from 400+ unique buying organizations, it is not mandatory. As a supplier in the JAGGAER supplier network, you can participate in this event as a regular attendee.

In fact, if you missed the Aug end deadline of early bird discounts, please contact Suzanne Templeton right away (stempleton@jaggaer.com or +1 919-659-2237) and if you are among the first 3 respondents, we will extend the discounted hotel rate at the San Diego Sheraton Hotel and Marina!

If you want to instantly reach out to all attendees, consider a suitable sponsorship opportunity as detailed [here](#).

Only Demo Price Value (9.99\$) for SampleSQCustomer Price Set

We have created the SampleSQCustomer (SSQC) site so that suppliers can see how buyers search/view their hosted catalog content. It is important to note that if a small sample of your catalog products have been made available in SSQC site, only demo price value of \$9.99 should be loaded. This is necessary because the site is made available to all the suppliers in our network. If you load real price, it would be viewable by other suppliers.

- Demo price is expected to be loaded for only upto 100 products, even if your catalog has thousands of products. This is to ensure that all suppliers can quickly view their products and the search results are not overwhelmed by results from large catalogs
- Your catalog products can be made available in SSQC, using demo pricing, only if you have a hosted or punchout enablement for at least one live client

Third Evaluation of Hosted Content for This Year

We will soon undertake the exercise of evaluating hosted content to identify any data gaps that might be adversely affecting buyer experience. For this purpose, we will analyze hosted content as of 27th Sept 2019. The results of this analysis will be made available to you in the November issue of SupplierNews. Results will be published in the standard format of a single pdf file per catalog, the Data Completeness Report (DCR), along with an overview document that provides all details about the process as well as the reports.
