SupplierNews - July 2020

The 20.2 Product Release Will be Available Soon

As a part of the 20.2 Product Release, to be made available in your JAGGAER Supplier Portal starting July 20, 2020, few new units are being added for the Packaging UOM attribute. You need not take any action for your hosted content. The 'Standard Units and Unit Mappings' file, available from the 'View Online Training and Support' screen of your JAGGAER Supplier Portal will have the details once the Release is effective.

This Product Release also has other functionalities / improvements such as;

- Several usability enhancements to Sales Orders and Sales Invoice searches
- Customer Ability to Configure Advance Shipping Notice Reminders
- Enhancements related to contracts, sourcing and invoice functionality

The Supplier Release Notes will have more information about all such changes. Once the Release is available on July 20, you can [click here](#) to access the Supplier Release Notes.

Results of the Second Hosted Catalog Analysis of the Year

The second data completeness evaluation of all hosted catalogs has been completed, based on catalog content as of 31st May 2020. The results of the analysis have been provided as Data Completeness Report (DCR), specific for a catalog. The link for DCR has been provided in message text of the SupplierNews email. If you have multiple hosted catalogs, a separate DCR for each hosted catalog has been provided.

If the DCR indicates any data gaps, please resolve them as soon as possible to minimize adverse buyer experience. To access an overview document that describes how the data is analyzed, please [click here](#).
