Supplier News - October 2020

About R20.3

Early next month, we will have the third Release for this year available in your JAGGAER Supplier Portal. The 20.3 Release will be available beginning Nov 9, 2020. Here are some of the salient points of the new functionality. Starting Nov 9, suppliers will be able to;

- Include attachments with Advanced Shipping Notices sent to buyers
- Select from more Payment Term options when sending a Sales Invoice and see new Payment Terms defined by buyers on a Sales Order.
- Designate a Sourcing Event attachment as “Confidential”, so that only specific users can access the information. They will also be able to upload several attachments at once when responding to a Sourcing Event

The details of these and other changes coming up with the 20.3 Release will be made available in the Supplier Release Notes, once the Release is effective.

About Taxonomy Update

The JAGGAER Taxonomy includes UNSPSC Based Categories and also has UNSPSC codes assigned to each of the Categories – UNSPSC Based as well as Proprietary. To keep these codes as latest as possible, we are updating the Taxonomy as part of the 20.3 Release, to be made available on Nov 9, 2020. We will synchronize the Taxonomy with latest UNSPSC version – v23.0701. As a result of this process, about 73,000 new Categories will be added and names of about 380 existing Categories will be edited – all of these being UNSPSC Based Categories.

Suppliers need not take any action for their existing hosted content regarding this Taxonomy Update. Once 20.3 Release is available, you would need to make sure that you use latest Categories and Attributes file which will provide latest list of Categories, including the new ones being added.

When the 20.3 Release is available in your JAGGAER Supplier Portal, you will find updated versions of appropriate reference documentation. If you have any questions about the Taxonomy Update, please reach out to the Supplier Support group.

Update Contact Information in Your Portal

This monthly newsletter, SupplierNews, is sent to make suppliers aware of relevant items such as new functionality in upcoming Product Releases, actions to be taken for security certificate changes, best practices about hosted catalog management etc. We send this SupplierNews newsletter to all active users of the JAGGAER Supplier Portal, along with active contacts. Hence it is important that appropriate persons within your organization have been added as user / contact in your JAGGAER Supplier Portal.

Please take a minute to check if you need to add anyone as user / contact and also to confirm that the email addresses of existing contacts is accurate.
