Supplier News - May 2021

Options to Check Pricing for Your Hosted Catalog

At times, there are pricing related questions from customers for the products in your hosted catalog. Questions about availability of product, the price of the product, about price sets waiting for approval that show unexpected changes etc. When you want to check the pricing loaded for your hosted catalog with JAGGAER, here are various options available in your JAGGAER Portal;

1. **To check individual item's price:** Go to the Catalogs and Contracts > Hosted Catalog Items and Price > Hosted Catalog Items > Item Master Search screen. Search for desired item. In the item details, one of the tabs is 'Prices' which shows all hosted price sets. You can filter by specific customer, currency etc.
2. **To generate a specific customer's price set:** Go to Catalogs and Contracts > Hosted Catalog Items and Price > Hosted Catalog Price Sets > Price Sets screen, which will display all price sets, with additional filters available. You can use checkboxes on right to select price set(s) and select appropriate action in the 'For the selected price set versions:' dropdown. Using these actions, in addition to single price set extract, you can also generate customer's version of the price extracts – including a comparison extract between two price set versions.
3. **To generate a price extract that includes all price sets:** Go to Catalogs and Contracts > Hosted Catalog Items and Price > Request Hosted Content and Price Extracts >> Request Extract screen and set Extract Type = Customer Approved Prices. Once ready, the extract can be downloaded from the Requested Extract Files tab. You can choose to limit the extract by currency.

Second Data Completeness Evaluation

The regularly scheduled second evaluation for hosted catalog content will be performed soon. It will be based on hosted catalog content as of 28th May 2021. This evaluation is done to identify any data gaps that your catalog might have, adversely affecting customer experience. The results of this evaluation will be provided in the July issue of SupplierNews. If you are providing customer specific pricing for your hosted content, you will be able to load a sample of your products in the SampleSQCustomer site. As usual, credentials for accessing this site are provided in the message text of the SupplierNews email message.
