JAGGAER Pay

End-to-end AP automation that increases efficiency, improves financial position, and mitigates risk

Paying Suppliers is Costing Your Business More Time and Money Than You Think

- Accounts Payable staff spend **84 percent** of their time on tasks related to supplier payments.

- Electronic payment types cost **30 times less** than paper checks.

- Paper checks are responsible for more than **10 times as much** fraud as electronic payments.

Time and money spent paying suppliers can be spent on the things that really matter to your business:

Growing Revenue

Competitive Position

Driving the Bottom Line

How it Works

Suppliers Enabled

Supplier data is shared with your payment processing partner to validate data and campaign to convert to more efficient payment method and terms.

Suppliers Synchronized

Any updates to your supplier data is shared between JAGGAER Pay and the payment partner to ensure data is accurate across systems.

Payments Approved

Buyer tells JAGGAER Pay who, when, & how much to pay.

Payments Processed

JAGGAER Pay sends Buyer payment instruction to payment partner for processing.

Payments Disbursed

The payment partner identifies the best payment method for the supplier via enablement and disburses payments in that method, as instructed by the Buyer in JAGGAER Pay.

Payments Settled

As payments are settled with the payment partner, reconciliation data is provided back to JAGGAER Pay, to update the invoice and ultimately the ERP.

All tasks are accomplished within a single JAGGAER module, JAGGAER Pay. No need to change your accounts payable processes, ERP applications or existing banking relationships.

Smarter Payments, Better Benefits

No more printing, signing and mailing paper checks. No more settlement headaches. Our intelligent payment network executes supplier payments on your behalf so your staff can focus on high-value activities.

We also guarantee payment settlement. This means you will never have to chase down suppliers about outstanding payments.

Pay suppliers the way they want to be paid.

JAGGAER Pay's intelligent electronic payments network supports multiple payment methods, enabling you to meet supplier preferences.

Use our analytics to your advantage.

JAGGAER Pay's rich and expansive database of supplier information and advanced analytics identify suppliers willing to accept electronic payments.

Eliminate the burden of manual Supplier Management.

Manage your suppliers and their payment data and updates across JAGGAER, the ERP and payment processor.

Avoid the time and expense of supporting suppliers.

Our team ensures that your suppliers receive exceptional care.

Better control over your cash and spending.

We take the guesswork out of cash forecasting with speedy payment settlement and real-time visibility into supplier payments.

Free Your Staff to Focus on What Matters

Now *That's* **Smart Payments.**

These are the reasons that businesses in a wide range of industries use JAGGAER Pay's intelligent electronic payments network to pay more than 100,000 suppliers.

	Smart Payments	Not-So-Smart Payments
Opportunities Created	Driven by advanced analytics.	Existing supplier data on file.
Payment Methods	Multiple payment methods.	Limited options.
Supplier Management	Synchronized supplier data updates across systems.	Manual and out of sync supplier updates.
Payment Settlement	Managed payments as a service.	Tools assist, but client does the work.
Visibility	Real-time actionable insights.	One-size-fits-all legacy reports.

Reduce costs to pay suppliers by up to 50%
