

# JAGGAER for Life Science

25 Years of Spend  
Management Expertise

For 25 years, JAGGAER has implemented our industry-leading procure to pay platform to help life science customers bring spend under management and find impactful savings organization-wide. Our targeted and specialized SaaS solution is uniquely designed to meet the needs of early and growth stage life science companies.

## JAGGAER for Your Growth Stage Company

JAGGAER facilitates all purchasing and settlement operations for your organization's user community. JAGGAER for Life Science is truly a dynamic and vibrant eMarketplace that enables your company to:

- Exceed expectations for organizational ability
- Manage risk, accuracy and accountability
- Employ streamlined processes in a single platform
- Drive significant value in AP by reducing manual and paper processing
- Simplify Sunshine Act and Sarbanes-Oxley Act reporting
- Onboard and enable vendors to our extensive Science Catalog at no cost

## Designed Exclusively for Early and Growing Life Sciences Companies

- No ERP needed
- Purpose-built science catalog for instant access to thousands of vendors and SKUs
- Document business processes early and set up for scalability
- Prepare for IPO and other regulatory requirements

## Grow Over Time

- Right-sized implementation with self-service components
- Easily enable additional capabilities like Chemical and Stockroom inventory Management as your organization grows

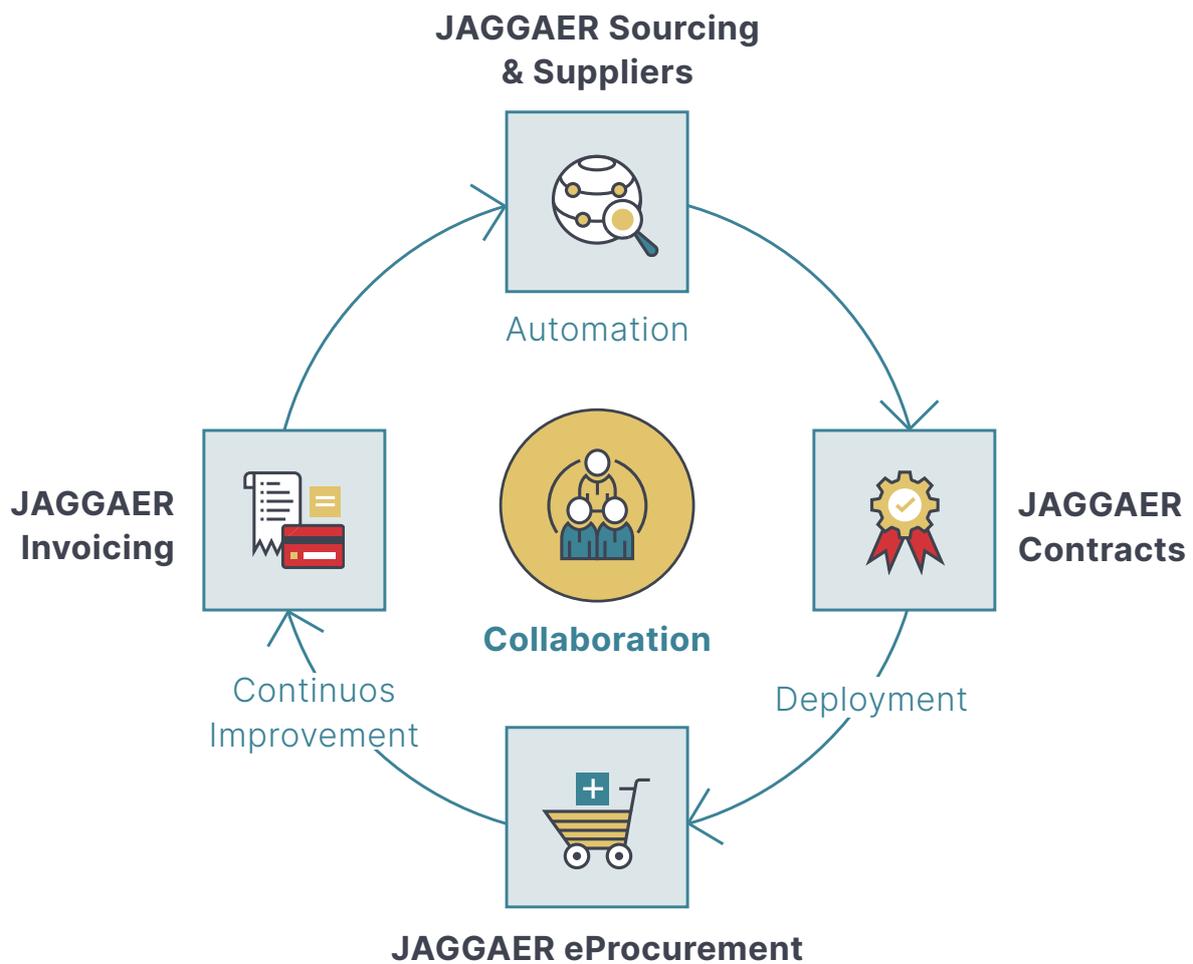

## Full Access To JAGGAER Offerings

- JAGGAER knowledge management portal
- Product releases and ongoing development, maintenance, enhancements and support
- Account Management and Customer Success team

- Streamlined and focused pre-project training and preparation requirements
- Operational in 30 business days

## Real World Results

- ➔ Manage risk, accuracy and accountability
- ➔ Reduce uncontrolled spend and deliver same day PO approvals
- ➔ Gain visibility, time and flexibility and eliminate paper requisitions, POs and invoices while working remotely
- ➔ Manage risk and control spending through comprehensive workflow controls
- ➔ Reallocate 3 to 5 FTEs to more crucial areas of the business

## Return on Investment

- ➔ Save **3-18%** by reducing maverick spend
- ➔ Provide **30-50%** time savings per purchase transaction
- ➔ Save **\$27-\$45 per invoice** with eInvoicing
- ➔ Reduce invoice processing time by **40-85%**
- ➔ Drive **1-3%** savings for each invoice paid early
