

PRODUCT BRIEF

JAGGAER eProcurement

Take Control with Intelligent Purchasing

Key Outcomes

- Streamlined purchasing for faster decisions
- Stronger compliance with policy-driven workflows
- Smarter spending with real-time analytics
- Increased savings by reducing off-contract spend
- Greater productivity through automation
- Enhanced supplier relationships and buying

Centralize 100% of spend in a single Source-to-Pay platform. JAGGAER eProcurement empowers organizations to take control of purchasing with smarter, faster, and more compliant procurement. As part of the JAGGAER One platform, it seamlessly connects sourcing, contracting, invoicing, and payments to deliver a true end-to-end experience.

Powered by intelligent automation and embedded AI, it simplifies buying, enforces policies, and guides users to preferred suppliers. With tools to manage budgets and maximize savings, procurement teams can confidently drive strategic value across the enterprise.

Up to 60%

Savings in time spent per transaction

Up to 18%

Savings from realigning maverick spend to contract

JAGGAER

Key Features and Benefits

Guided Buying Experience

Navigate to preferred, contracted items and suppliers using customizable Q&A wizards and policy-driven prompts.

Intake & Orchestration

Unified experience automates document creation, enforces dependencies, and routes requests efficiently.

Advanced Workflow & Automation ✨

Supports complex approval routing with bots and AI that highlight anomalies and provide confidence ratings.

Project-Based Procurement

Centralize procurement for capital projects, linking spend to phases, tasks, and milestones.

One-Stop Shopping & Marketplace

Unified interface combines hosted catalogs, punchouts, and inventory into one searchable experience.

AI-Powered Shopping Assistance ✨

Improve accuracy and speed with AI-suggested commodity codes and accounting strings during requisitioning.

Budget Management Suite

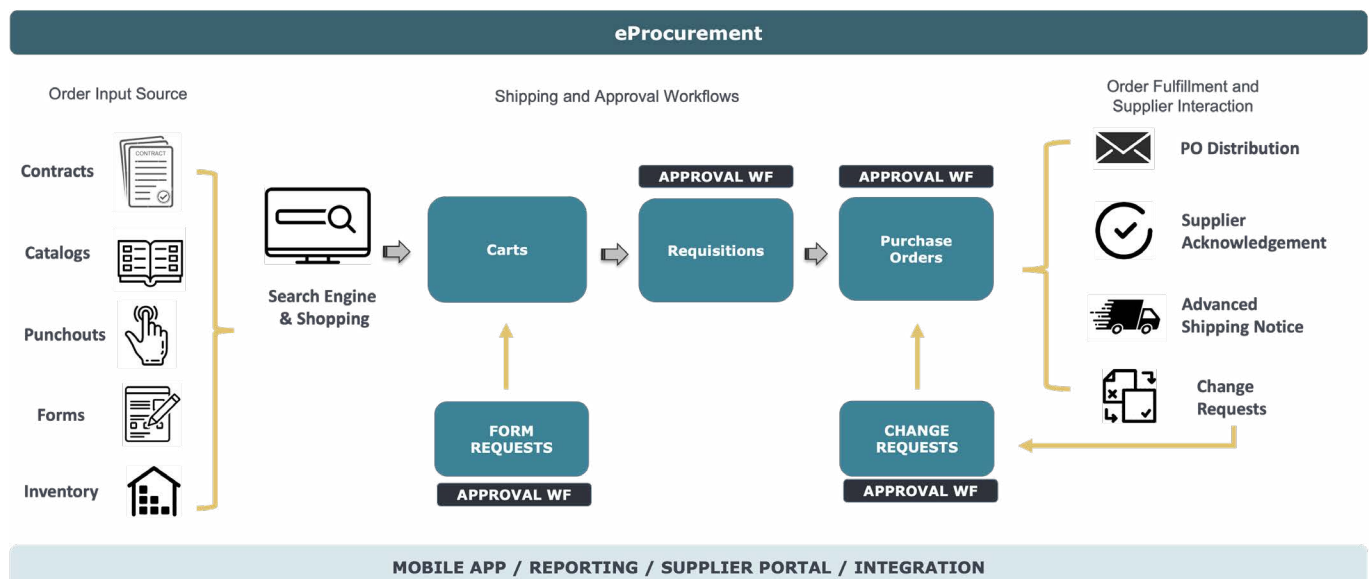

Full lifecycle budget control, from creation and approval to enforcement and tracking, independent of ERP systems.

Turnkey Supplier & Catalog Enablement

Streamlines supplier onboarding and catalog integration to boost access and compliance.

JAGGAER eProcurement: Purchasing Made Simple

JAGGAER eProcurement supports the end-to-end purchasing life cycle from catalog submission and approval through to PO confirmation and shipping notices.

The Power of a Connected Procurement & Supply Chain Ecosystem

JAGGAER eProcurement is the buying experience within JAGGAER One. When connected across JAGGAER One's source-to-pay solutions, it becomes part of a powerful ecosystem that streamlines operations, reduces risk, and accelerates business outcomes. Powered by an intelligent core, JAGGAER One orchestrates data, processes, collaboration, and intelligence into strategic action to drive lasting value.

Connected Capabilities. Accelerated Outcomes.

Procurement delivers more value when eProcurement connects across the S2P ecosystem:

Caltech

"The new JAGGAER system restored the credibility of Procurement Services across the organization. But the greatest benefit of all was to get the new system in place in the nick of time, seamlessly and without any downtime."

- Lilly Mendez, Accounts Payable Manager, Caltech
