

JAGGAER Supplier Management & Performance

Minimize Risk, Maximize Value

Key Takeaways

- Proactively identify supplier under performance
- Reduce disruptions with real-time alerts & auto corrective actions
- Accelerate onboarding with guided self-service & compliance checks
- Improve alignment & accountability by linking actions to goals
- Drive cost & quality improvements via continuous performance management

Meet JAI 

Partner with JAGGAER on Your AI Journey

Built on 30 years of procurement expertise and enterprise trust, JAI powers autonomous decision-making across Source-to-Pay.

- **Now:** JAI Assist answers, guides, resolves
- **Next:** JAI Copilot provides predictive insights
- **Future:** JAI Autopilot runs workflows autonomously

Drive measurable outcomes fast—cut onboarding time, reduce risk exposure, and lift supplier performance with one workspace that turns real-time signals into action. JAGGAER's Supplier Management & Performance brings the full supplier lifecycle into focus—from onboarding through ongoing evaluation—with real-time insights, automated workflows, and development plans that push performance forward.

With AI embedded across the supplier lifecycle, JAGGAER customers gain smarter, faster insights that drive real impact. From identifying early signs of under performance to auto-triggering development plans, AI enhances decision-making, improves supplier collaboration, and helps mitigate risk—empowering procurement teams to focus on strategic growth, not manual oversight.

Time Savings

Up to 75%

Reduction in reporting cycle times

The screenshot displays the JAGGAER ONE platform interface, featuring several key components:

- Top Navigation:** Includes links for "Main Dashboard", "Supplier Dashboard", "Sourcing Initiatives", "Sourcing Dashboard", and "Supplier Risk".
- Left Sidebar:** Lists "ALL SUPPLIER MANAGEMENT QUICK LINKS" such as "Supplier", "Supplier for frequent buyers", "Additional Status Directory", "My Segmentation Assessments", "My Qualification Assessments", "My Risk Assessments", "My Category Assessments", "Supplier Classification", "Global Segmentation Assessments", "Global Qualification Assessments", "Global Risk Assessments", "Global Category Assessments", "Enterprise Scoresheets", "Segmentation Scoresheets", "Qualification Scoresheets", "Risk Scoresheets", "Category Assessment Scoresheets", and "Contract Scoresheets".
- Map View:** A map titled "SPHERA" showing supplier locations across Europe and the Middle East. A legend indicates location status: green (Approved), yellow (Qualified), orange (Non-Qualified), blue (Assessment in Progress), red (Expired Qualification), green (Re-qualified), and red (Registration denied).
- Bottom Left:** A "RISK PERFORMANCE" chart showing a pie chart with segments for "Unsatisfactory" (red), "Satisfactory" (orange), and "Good" (green).
- Bottom Center:** A "SUPPLIERS STATUS GRID" table showing the count of suppliers in various categories: Blocked (0), Pending Activation (0), Active (1), Deactivated (0), and Total (1).
- Bottom Right:** Two pie charts: "MY QUALIFICATION ASSESSMENTS" and "MY SEGMENTATION ASSESSMENTS".

Key Features and Benefits

Supplier Onboarding & Qualification

Streamline registration, document submission, risk checks, and approval in one flow—reducing friction and errors.

Configurable Scorecards & Dashboards

Align metrics across quality, delivery, compliance, ESG, etc., so stakeholders get views tailored to their goals.

Supplier Development Plans

Trigger workflows the moment supplier performance lags with dedicated improvement plans that mitigate supply chain disruption.

Data Enrichment & Third-Party Integration

Integrate with data sources from our deep partner ecosystem (EcoVadis, Moody's, etc.) to enrich your metrics with external intelligence.

Multi-Tier & Ownership Visibility

Monitor supplier's upstream or parent entities—giving context beyond immediate contract relationships.

AI Powered Risk & Compliance ✨

Enrich performance data with external risk signals (financial, ESG, fraud) to ensure you don't reward hidden problems.

Supplier Collaboration & Self-Assessment

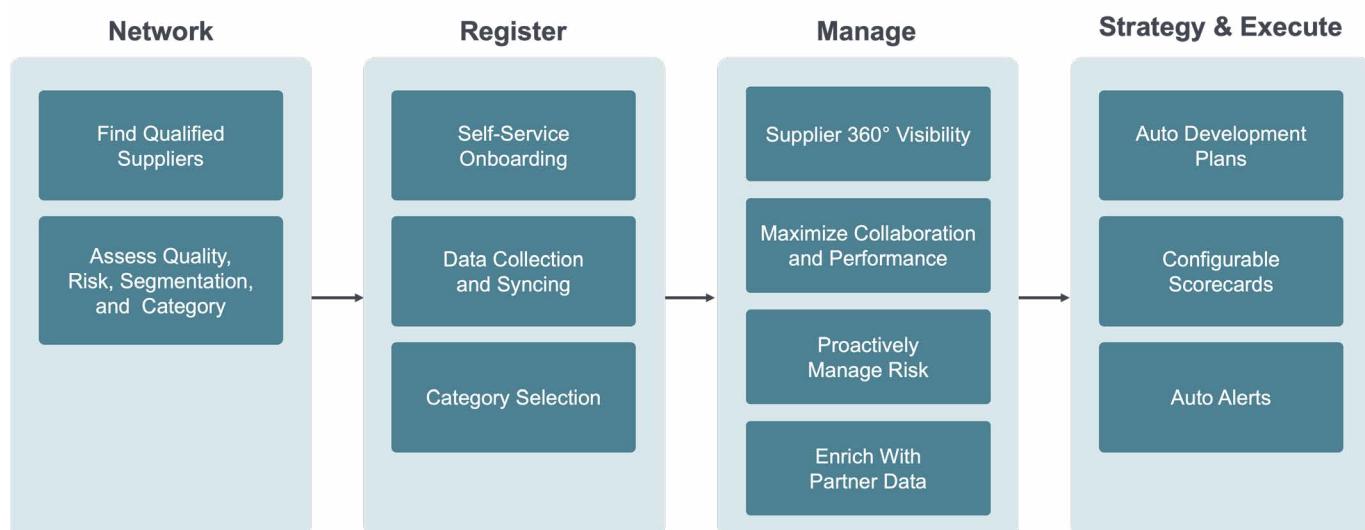

Suppliers can view their scores, respond to feedback, submit improvement plans, and engage in a dialogue.

Document Validation ✨

AI-powered document validation reviews supplier submissions, reducing manual checks and accelerating compliant onboarding.

JAGGAER Supplier Management & Performance

Empowering procurement teams with AI-driven insights and automated workflows that guide every decision, maximize supplier performance, and proactively mitigate risk across the entire supplier lifecycle.

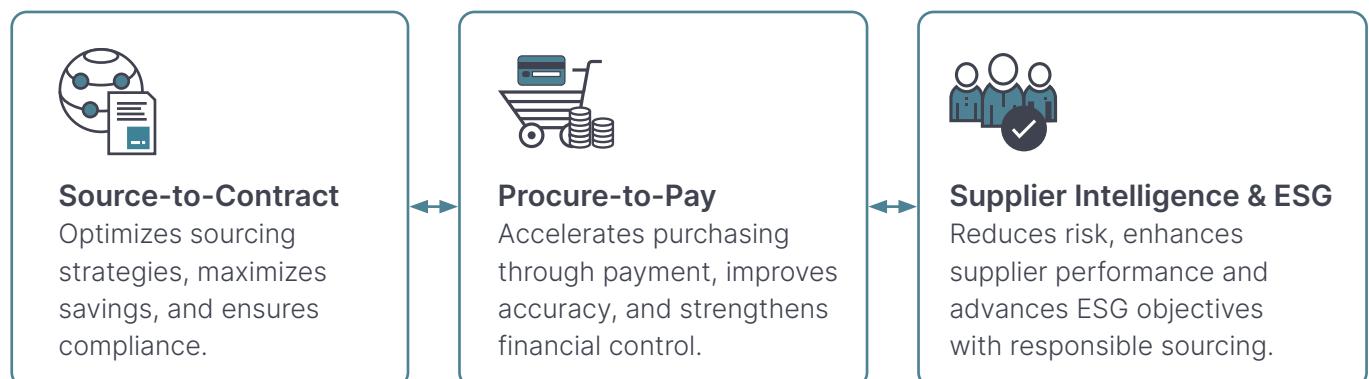

Get Even More Value Across Your S2P Journey

JAGGAER Supplier Management & Performance is the supplier lifecycle management element of JAGGAER One. Together with other modules, it forms a powerful, connected source-to-pay ecosystem that streamlines procurement and supply chain operations. JAGGAER One serves as the intelligent orchestration layer, where data, analytics, security, embedded intelligence, AI, and integrations come together to power performance and deliver continuous value.

Connected Capabilities. Accelerated Outcomes.

Procurement delivers more value when Supplier Management & Performance connects across the S2P ecosystem:

"We are able now to onboard suppliers from all over the world, analyze procurement data at the click of a button, monitor procurement KPIs and provide them to all functions internally and to all suppliers."

- Stefano Vermiglio, Industrial Procurement Excellence Manager at Angelini Pharma
