Change is Inevitable. Be Ready

When dealing with district-wide challenges, administrative hurdles, and endless budget battles, the challenges of streamlining procurement and getting a hold on spend is often out of reach for most schools, whether K-12, community colleges, or universities. For more than 20 years, JAGGAER has helped educational institutions focus on the missions of their students, faculty, and staff with our indirect procurement solutions.

WE ARE HERE TO HELP

We are the number one choice among educational institutions of every level, empowering school administrators and business officers to increase their purchasing productivity, gain visibility into day-to-day transactions, and make it easier to get the supplies that they need on a daily basis. With JAGGAER ONE, we can find a solution that perfectly fits your school's challenges and lets you get back to focusing on students, staff, and faculty.

JAGGAER's comprehensive Education Suite is designed to meet the needs of schools regardless of level or size. We deliver the most powerful procurement solutions in the world to make purchasing, sourcing, contract management, and accounts payable processes simple and beneficial to staff, students, and administrators. With JAGGAER ONE, you can centralize and manage spend, simplify regulatory compliance, and reduce overall costs in order to direct more resources to your mission—all while backed by experts at JAGGAER ready to help.

Sourcing — With tightening budgets, schools want to enable savings wherever possible. Sourcing allows them to tap into automation for their strategic sourcing events, saving time and money while ensuring process compliance and improving bid quality. It helps users create events, manage bids, and award contracts automatically, saving time and money. Research shows organizations that automate their sourcing efforts save an average of 20%.

eProcurement — Our eProcurement solution provides real-time visibility into product availability — both with suppliers and local inventory — all within an intuitive shopping environment that has thousands of active supplier integrations available in a dynamic and responsive interface. Contract compliance can be managed through eProcurement, allowing schools to influence purchases by staff and faculty, and improve spend management across offices, campuses, or districts.

Inventory Management — Inventory Management gives schools' research labs full lifecycle management of their crucial resources — the chemicals and materials that fuel discovery — including the ability to find, source, and track them in an intuitive, tile-based UI. A first-of-its-kind triple-federated search allows users to find chemicals by supplier, structure, or description, across both external and internal inventories, optimizing chemical supply and decreasing unnecessary spend. On average, organizations realize a 100% ROI within the first year of implementing Inventory Management.

Contracts+ — Contracts+ allows schools to manage all phases of the contract process. They can easily track the performance of suppliers against contracts, ensuring they receive everything promised and can avoid issues caused by late or undelivered goods or services. By relieving school administrators of the cumbersome processes of storing, sorting, and reviewing contracts manually, Contracts+ makes contract management simple and reduces costly errors.

JAGGAER ONE: All Spend, All Processes, One Solution

The JAGGAER ONE Spend Management Platform supports the full range of sourcing and buying activities across the entire procurement process. When discussed in terms of how procurement benefits the wider organization, the source-to-pay process can be represented in two distinct stages: **Upstream** (sourcing) and **Downstream** (buying).

With a single, unified solution for your source-to-pay process, organizations can achieve significant savings and other top-level results including:

- Reduced cycle time
- Strategic supplier relationships
- Reduced risk
- Increased cash flow

“For every \$1 we pay JAGGAER, we get \$6 of benefit.”

– A University in Georgia

“We saw 98% user adoption and satisfaction with our eProcurement system and achieved increased contract compliance.”

– A University in California

Hitting Spend Targets

JAGGAER's mission is to empower organizations to turn their procurement process into a competitive advantage. eProcurement, Sourcing, Contracts+, and Inventory Management are just part of the JAGGAER ONE spend management platform, designed to work with existing systems and processes, provide analysis and reporting, and streamline supply chain processes. JAGGAER ONE integrates seamlessly with over 40 ERPs, including Oracle, SAP, PeopleSoft, and Workday. Whichever ERP you use, we have a defined methodology to get your solutions up and running quickly to avoid downtime. Our solutions are easy to implement and proven to deliver measurable, sustainable value with JAGGAER's high-touch support and automation. Our professional services team works with you to develop and execute a plan to facilitate seamless integration between your current technology and our own. We have launched hundreds of solutions for organizations over the years for organizations of all sizes and have developed best practices that ensure we meet our three mission-critical goals:

1. Ensure quick and seamless implementations
2. Deliver consistent and measurable customer value
3. Utilize best practice methodologies

Customer collaboration is at the core of JAGGAER's innovation and robust, growing portfolio. It's through this collaboration that we are able to tailor our solutions to your specific needs and enable you to:

**GAIN
CONTROL**

Centralize data across your school's purchasing systems to gain insight into what is working and what needs attention; get visibility into supplier performance to build an all-star team of suppliers that keeps your goods flowing.

**OPTIMIZE
EFFICIENCY**

JAGGAER sourcing and analytics solutions help schools make sense of complex environments and situations, and allow you the flexibility to adjust to new budget requirements or changes in your regulatory environment.

**REDUCE
SPEND**

With analytics tools giving insights into your procurement processes, supplier performance, contract compliance, and strategic sourcing options, we help schools manage and reduce spend to keep their focus on their mission and students.
