

PRODUCT BRIEF

JAGGAER Spend Analytics

Maximize Impact with Total Spend Visibility

Key Takeaways

- Unify spend data into a single source of truth
- Reveal risks and trends through AI analytics
- Detect off-contract and non-compliant spend
- Align strategy with supplier performance
- Empower smarter decisions with dashboards
- Benchmark to drive continuous improvement

Meet JAI

Partner with JAGGAER on Your AI Journey

Built on 30 years of procurement expertise and enterprise trust, JAI powers autonomous decision-making across Source-to-Pay.

- **Now:** JAI Assist answers, guides, resolves
- **Next:** JAI Copilot provides predictive insights
- **Future:** JAI Autopilot runs workflows autonomously

Gain complete control and visibility over enterprise spend with JAGGAER Spend Analytics—the intelligence engine that transforms raw data into actionable insight. By unifying and cleansing data from multiple ERPs, platforms, and business units, it delivers a trusted source of spend truth where procurement and finance teams can identify inefficiencies, enforce policy compliance, and accelerate decision-making.

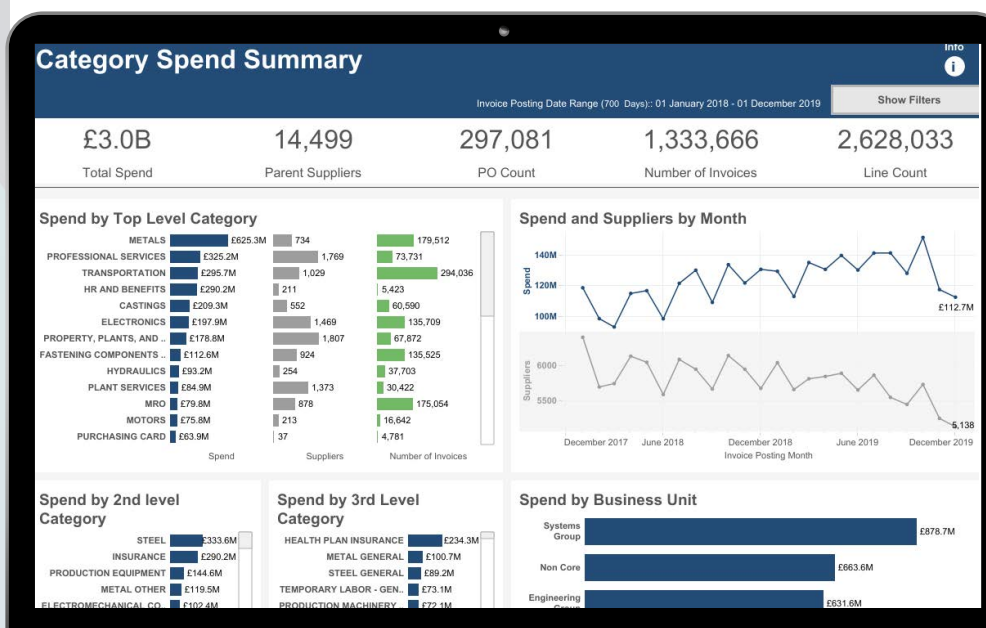

Embedded AI and rich dashboards enable organizations to respond faster to changing market dynamics, capture savings, and strengthen governance across the Source-to-Pay ecosystem.

90%

Save spend typically lost to pricing inaccuracies by leveraging advanced spend analytics.

75%

Reduce time spent collecting and cleansing spend data with advanced spend analytics.

Key Features and Benefits

Unified Data Foundation

Aggregate, cleanse and integrate spend from multiple ERPs and platforms to deliver a unified, consistent enterprise view.

AI-Driven Classification

Apply NLP and ML to automate transaction classification, reduce manual effort and speed insight generation.

Customisable Analytics Dashboards

Create tailored dashboards and reports aligned to your organization's KPIs, categories, suppliers and stakeholders.

Supplier & Category Insights

Analyse spend by supplier and category to find consolidation options, cost drivers and strategic opportunities.

Automated Policy Enforcement

Deploy automation to enforce spend policies, flag non-compliance, reduce risk and enhance governance.

Benchmarking & Market Intelligence

Blend spend data with market indices and benchmarks to assess performance, forecast trends and respond to market shifts.

AI-Optimized Intelligent Spend Visibility ✨

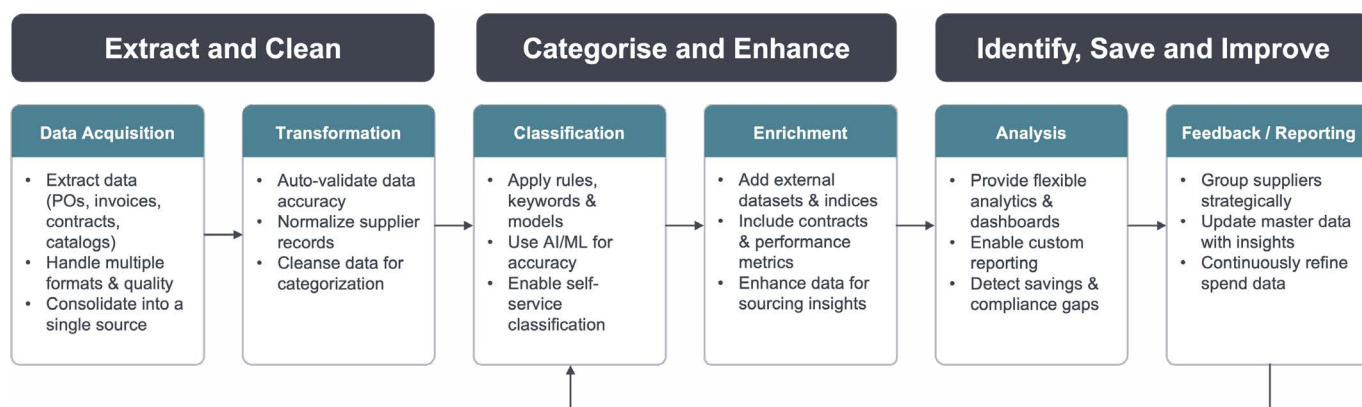

Apply NLP and ML to reveal supplier insights, reduce complexity, find consolidation options and detect price changes.

Strategic Value Saving

Use enriched insights to guide sourcing decisions, drive volume savings and build stronger supplier value.

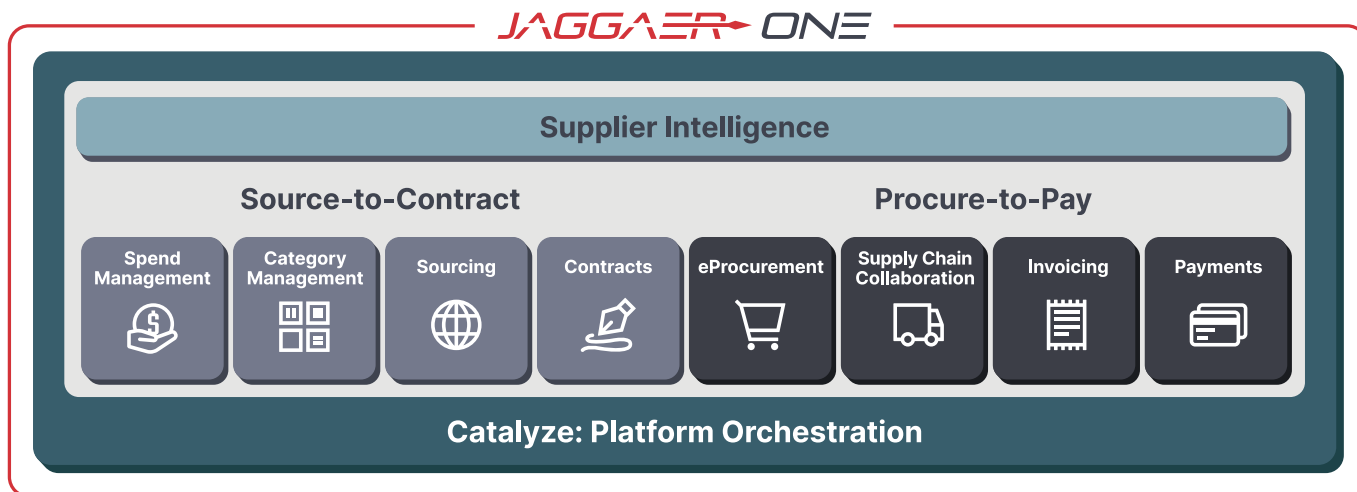

JAGGAER Spend Analytics: From Data Consolidation to Actionable Insight

JAGGAER Spend Analytics streamlines the entire journey—from aggregating fragmented spend data across ERPs and systems, to classifying and enriching transactions using AI, to delivering dynamic dashboards and alerts that drive strategic interventions. Procurement and finance teams collaborate in a unified environment, leveraging insight to reduce maverick spend, optimise sourcing, and align with business goals.

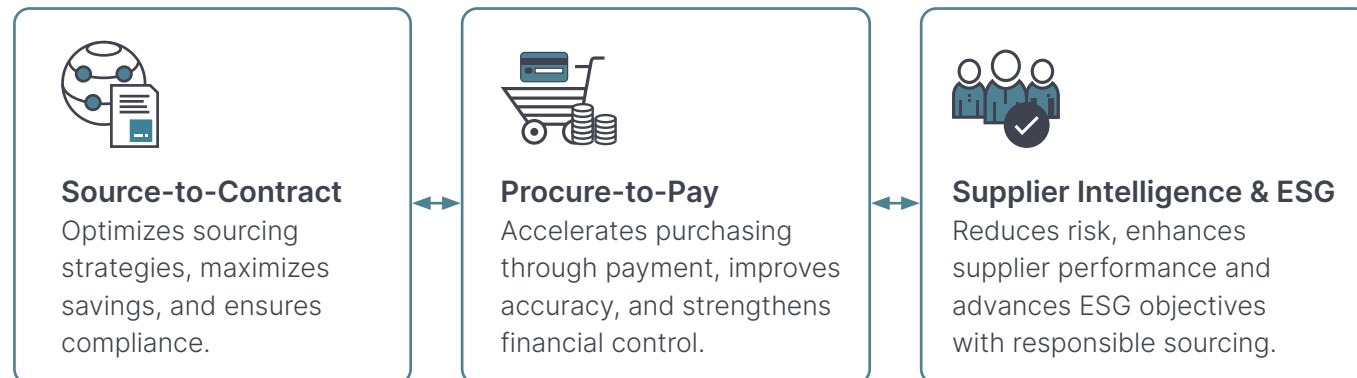

The Power of a Connected Source-to-Pay Ecosystem

JAGGAER Spend Analytics is the intelligence hub of JAGGAER One, unifying and enriching enterprise spend data across different systems to power smarter decisions across Source-to-Contract and Procure-to-Pay. It transforms fragmented information into actionable insight, helping organizations reduce risk, accelerate savings, and deliver sustainable value.

Connected Capabilities. Accelerated Outcomes.

Procurement delivers greater value when external systems connect with JAGGAER Spend Analytics, enabling smarter decisions across the Source-to-Pay ecosystem.

"JAGGAER is an end-to-end solution covering all of the key functions from source to pay, which makes things a whole lot easier. So, our approach could be summarized as 'JAGGAER for everything and everyone!'"

- Joanna Hryneńko-Dudek, Head of the Procurement Centre of Excellence (CoE), Danish Crown
