

JAGGAER ESG Intelligence

Turn Supplier, Risk, and ESG Insight into a Competitive Advantage

Key Takeaways

- One ESG hub across Source-to-Pay for smarter, compliant decisions
- Built-in compliance readiness to reduce risk
- Scope 3 transparency to quantify CO₂ & build a data-backed decarbonization plan
- ESG can be embedded in sourcing & awards for sustainable choices
- Trusted partner network to enrich data & insights

Meet JAI 

Partner with JAGGAER on Your AI Journey

Built on 30 years of procurement expertise and enterprise trust, JAI powers autonomous decision-making across Source-to-Pay.

- **Now:** JAI Assist answers, guides, resolves
- **Next:** JAI Copilot provides predictive insights
- **Future:** JAI Autopilot runs workflows autonomously

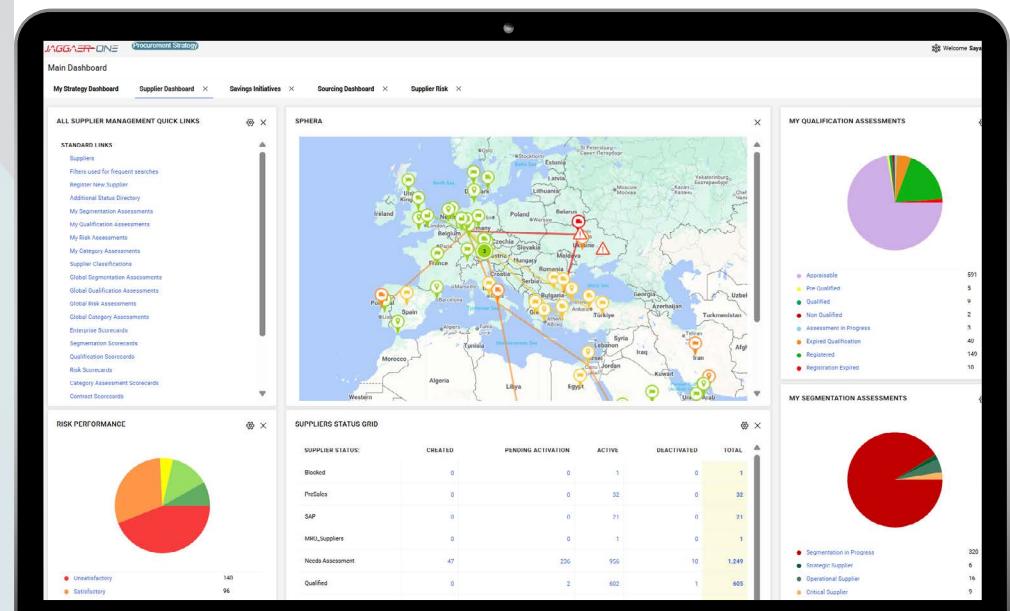

JAGGAER ESG Intelligence turns scattered sustainability, risk, and supplier data into an audit-ready competitive edge. It enables the collection and centralization of emissions, certifications, diversity status, due-diligence evidence, and third-party signals across Source-to-Pay so teams can spot hotspots, compare alternatives, and include ESG criteria in sourcing, awards, and performance. Configurable questionnaires, scorecards, development plans, and a deep partner network move data out of spreadsheets and into daily decisions—boosting compliance and reporting readiness. AI and automation validates documents, triggers goal-aligned plans, surfaces Scope 3 hotspots, and secures payments, enabling faster disclosures and responsible, defensible awards.

75%

of top research universities rely on JAGGAER for supplier transparency

30%

public sector organizations use JAGGAER to meet stakeholder demands

Key Features and Benefits

Centralize ESG Data & Insights

Unify supplier ESG, risk, and certificates in one place with configurable supplier questionnaires so you can make more sustainable and compliant decisions.

Drive Improvement & Mitigate Risk

Auto-trigger goal-aligned corrective actions and development plans the moment when supplier performance dips.

Automate Document & Certification Validation

Automatically verify supplier documents to reduce errors, speed reviews, and boost auditability.

Strengthen Regulatory Readiness & Disclosures

Streamline compliance for CSRD, CBAM, California climate rules, and more with carbon tracking and alerts.

Expose & Reduce Scope 3 Emissions

Gain carbon transparency, identify high-impact areas, and shape a credible decarbonization roadmap.

Award Responsibly with ESG-Weighted Decisions

Embed ESG metrics and carbon pricing into RFx and awards; optimize transport/packaging choices with Advanced Sourcing Optimized (ASO).

Enrich Supplier Profiles via Trusted Partners

Enhance ESG data quality and accelerate compliance with JAGGAER's trusted ESG technology partners. Whether you're just getting started or scaling your ESG strategy, JAGGAER has the right partner for every stage of your journey. From carbon transparency to risk scores and payment fraud prevention, these integrations enrich supplier insights for smarter, safer decisions.

The Power of a Connected Procurement Ecosystem

JAGGAER Contracts is the bridge between upstream and downstream procurement processes. When combined with other modules in the JAGGAER One platform, it becomes part of a powerful procurement ecosystem that streamlines processes, accelerates decision-making, enhances supplier collaboration, and drives stronger business outcomes across the enterprise.

Connected Capabilities. Accelerated Outcomes.

Procurement delivers more value when ESG Intelligence connects across the S2P ecosystem:

"Before adopting JAGGAER, procurement activities were managed in a very traditional way, with a variety of tools accessing data from various sources. Our goal was to manage all interactions with suppliers through a single tool, allowing us to get accurate data and to improve the transparency and governance of our procurement processes. We found an ideal partner in JAGGAER."

- Nives Visintin, Quality Data Manager
